Course Feedback

Dear Colleague,

Would you please take a few minutes to jot down a few thoughts and impressions of the SFSW course and the reunions you have attended. This will be extremely helpful when seeking to improve any future courses and may help attract future delegates.

Comments on all the items below would be greatly appreciated:

Quality of the lectures

.....*Always relevant, well presented, quality photography*

Home work/Case presentations

.....*Challenging, very high quality, I learn a lot from other dentists presentations, Very interactive*

Conference venue and facilities

.....*Good, easy access*.....
.....
.....

What effect has the course had on your working life?

.....*I can confidently diagnose and treat a lot of different orthodontic cases with fixed appliances ,functionals and extractions with great results. I always strive to achieve the high standards ,that was repeatedly demonstrated and taught in the modules.*
.....

How has your approach to orthodontics changed?

Due to the systematic and logical approach of The SFSW course treatment planning and diagnosis is much easier. I can apply the knowledge gained to each orthodontic case .This results in treatments I am proud of.
.....

Was the course value for money/too expensive/too cheap?

.....*Value for money*

Celestin Jacobs, General Dental Practitioner, Norfolk

Please add any other comments of criticisms you feel are appropriate

...*Hands on. Will recommend the course to anyone*

Many thanks for taking the time to fill in this questionnaire. I look forward to seeing you in the near future

Dear Colleague,

Would you please take a few minutes to jot down a few thoughts and impressions of the SFSW course and the reunions you have attended. This will be extremely helpful when seeking to improve any future courses and may help attract future delegates.

Comments on all the items below would be greatly appreciated:

Quality of the lectures

.....*Good*.....

.....*Always relevant, well presented. Photography excellent.*

Home work/Case presentations...Good range of cases, for all types of malocclusions, & some ..Challenging,

I learn a lot from other dentists presentations, which also brought about a wider range of problem cases, which we see in practice.

Improved my whole experience of taking photographs.

Conference venue and facilities

Other than being very dated, the amenities were ok. Access easy enough, although parking has been a problem.

What effect has the course had on your working life?

Improved my whole way of treatment planning, prescribing, and treating patients. I can manage to treat a lot of orthodontic cases with fixed appliances and extractions with good results .

How has your approach to orthodontics changed?

Apply methods taught, to logically come with solutions to patients mal-occlusion, and also understand my limitations, as to when to refer. Orthodontics is now not so difficult and can be learned to a certain level on the SFSW course

Was the course value for money? *Yes*

Amin Govani, General Practitioner Leicester.

Many thanks for taking the time to fill in this questionnaire. I look forward to seeing you in the near future.

Kind regards,

P.J.Sandler

Dear Colleague,

Would you please take a few minutes to jot down a few thoughts and impressions of the SFSW course and the reunions you have attended. This will be extremely helpful when seeking to improve any future courses and may help attract future delegates.

Quality of the lectures

The lectures were well presented and covered all the basics from Tx planning to finishing and retention.

The presentation included lots of facts and lots and lots of clinical photos.

Home work/Case presentations

The homework included various different types of cases, some of them very challenging. It was always exciting to go thorough the cases together the following time. I found the homework very good exercise and great to get the chance to see so many treated cases from start to finish.

Conference venue and facilities

The venue is very cozy and have nice rooms with very good food.

What effect has the course had on your working life?

It has had a huge impact on my working life. As I gained knowledge and confidence in treating cases often with the support of Alison and Jonathan I learned that Orthodontics was the thing for me! I have later with the encouragement from J & A completed specialist training and now work as an orthodontist my self.

How has your approach to orthodontics changed?

Yes, I know a lot more now.

Was the course value for money/too expensive/too cheap?

It was absolutely value for money.

You not only get the lectures and course manuals with hand-outs of relevant literature. You have Jonathan and Alisons full support with clinical cases, from start to finish.

Please add any other comments of criticisms you feel are appropriate

Alison and Jonathan are totally dedicated to their work and are very generous when it comes to sharing their knowledge from scientific stuff to clinical tips.

Ingrid Jönson Ring, Orthodontist, Uppsala, Sweden.

Dear Colleague,

Would you please take a few minutes to jot down a few thoughts and impressions of the SFSW course and the reunions you have attended. This will be extremely helpful when seeking to improve any future courses and may help attract future delegates.

Comments on all the items below would be greatly appreciated:

Quality of the lectures

...The lectures are clear concise informative, accurate, interesting, down to earth, easy to follow, bang up to date and you won't be subjected to any biased opinion. They just tell it like it is.

Home work/Case presentations

.....The best way to learn is to do treatments yourself under close supervision. Jonathan and Alison are excellent mentors who will answer your every query. This builds invaluable experience and confidence. You can also see how everyone else is coping at the same time! The homework is never a chore and rapidly expands your knowledge. Presentation takes a little practice and a sense of humour is invaluable

Conference venue and facilities

...The venue is accessible, quaint, spacious and comfortable and in a beautiful setting of Bakewell. The food is always excellent and the social side of the course is excellent. Even wine tasting.

What effect has the course had on your working life?

.....My working life has been transformed from what could have become monotonous dentistry to doing something that I thoroughly enjoy. The course has enabled me to follow my interests and has not only made my professional life so much more enjoyable but has provided me with a skill that is in demand and is fulfilling

How has your approach to orthodontics changed?

...Learning up to date methods and setting out a clear logical pathway enables case selection, diagnosis and treatment straightforward and satisfying. You will be impressed by the results!

Was the course value for money/too expensive/too cheap?

.....In dentistry it is wise to invest in your own future and the sooner you do it the better as experience takes time! Every bit of time and money invested in this course has been hugely rewarded

Please add any other comments or criticisms you feel are appropriate

...Not only will you learn new skills but you will gain new friends and learn from their experiences too. Getting orthodontic training of a high quality for GDCPs is extremely difficult in the UK and this course is absolutely the best. The SFSW course has provided me with a career path that I could not have undertaken any other way.

.....There are many changes to come in both the NHS and private sectors and in the future the more skills you have the better placed you will be to compete. This course will provide skills and interest and open doors that may not yet be apparent.I can highly recommend not only the SFSW course but also the Consultants who run it. It will change your life.

John Seddon, General Dental Practitioner Wakefield, November 2010

Many thanks for taking the time to fill in this questionnaire. I look forward to seeing you in the near future.

Kind regards,

P.J.Sandler

Dear Colleague,

Would you please take a few minutes to jot down a few thoughts and impressions of the SFSW course and the reunions you have attended? This will be extremely helpful when seeking to improve any future courses and may help attract future delegates.

Comments on all the items below would be greatly appreciated:

Quality of the lectures

Presentation is always exemplary from a good grounding in the basics all the way through to information on the latest techniques. There is excellent attention to detail throughout

Home work/Case presentations

The case presentations give a great learning opportunity to discuss different treatment options and then see the case treated and discuss the treatment outcomes. I find it very helpful to see how other practitioners treated their cases

Conference venue and facilities

.....Average

What effect has the course had on your working life?

Gaining a new skill has increased my enjoyment of practice

How has your approach to orthodontics changed?

Before the course I referred all my orthodontic cases. I am now able to diagnose the cases I am able to treat, 'pick the winners' and treat them in the practice. This is appreciated by patients who have all their treatment done in house

Was the course value for money?

With the new skills gained I feel that the course is value for money

Robin Blackwell, General Dental Practitioner, Chesterfield

Please add any other comments or criticisms you feel are appropriate

...I would have no hesitation in recommending this course to anyone who wants to develop their orthodontic skills.....

Dear Colleague,

Would you please take a few minutes to jot down a few thoughts and impressions of the SFSW course and the reunions you have attended. This will be extremely helpful when seeking to improve any future courses and may help attract future delegates.

Comments on all the items below would be greatly appreciated:

Quality of the lectures

.....*Always relevant, well presented, quality photography , evidence based research*.....

Home work/Case presentations

.....*Challenging, very high quality*.....
h.....

Conference venue and facilities

.....*Good, easy access*.....

What effect has the course had on your working life?

Gives me confidence to do orthodontics in practice. Inspired me to study more about orthodontics.,

How has your approach to orthodontics changed?

.....*Able to diagnose most cases and develop a treatment plan*.....

Was the course value for money/too expensive/too cheap?

.....*Value for money*.....

Trishan Malhi, General Dental Practitioner, Derby

Dear Colleague,

Would you please take a few minutes to jot down a few thoughts and impressions of the SFSW course and the reunions you have attended. This will be extremely helpful when seeking to improve any future courses and may help attract future delegates.

Comments on all the items below would be greatly appreciated:

Quality of the lectures

Always relevant, well presented, quality photography and a wide range of cases shown.

Home work/Case presentations

These were challenging but fun. I learn a lot from other dentists presentations and when Jonathan went through the cases step by step.

Conference venue and facilities

Good, easy access, clean. Has WiFi!!

What effect has the course had on your working life?

I can manage to treat a lot of orthodontic cases with fixed appliances and extractions with good results. Having Jonathan and Alison for backup is very reassuring.

How has your approach to orthodontics changed?

Orthodontics is now not so difficult and can be learned to a certain level on the SFSW course.

Was the course value for money/too expensive/too cheap?

Good value for money.

Ron Patel General Dental Practitioner, East Midlands

Please add any other comments or criticisms you feel are appropriate

None. The course was good and have learned a lot.

Many thanks for taking the time to fill in this questionnaire. I look forward to seeing you in the near future.

Kind regards,

P.J.Sandler
